Week of the Early Childhood Educator/Child Care Assistant April 29-May 3

Early Childhood Education Week is a time to recognize the importance of the development that happens in the early years, and to celebrate the programs and educators who provide children with the support they need to grow and learn during this critical stage of life.

We have a team of educators that genuinely care about the well-being of each child in our programs. This group of ladies is dedicated to providing a safe learning environment where children can build positive relationships with their peers and caregivers.
